

Aerial TV	Satellite TV	Domestic Properties	Commercial Properties
Maintenance - Repairs - Installations - Design - Consultation			

Introduction

NorthWest Aerials Ltd has been established since 1993 and specialises in the maintenance, supply, design and installation of domestic or commercial aerial and satellite TV systems.

As members of the Confederation of Aerial Industries all the equipment used in our installations is of the highest quality and benchmarked where possible in accordance with membership and working regulations.

NorthWest Aerials Ltd offer a fully compliant Health & Safety Policy in all our working applications. All engineers are CAI working at heights trained and certified.

Not only do we enjoy longevity brought about by a reputation for good service, quality workmanship and attention to detail. We also have a loyal and long serving workforce.

Our senior engineers have all worked for us for over 15 years, their experience encompasses the installation and maintenance in an ever changing industry.

Domestic & Commercial

Being established for over 20 years, we have a vast amount of experience in communicating to our customers directly. When visiting customer's homes, we believe it is essential to provide the public with punctual and high quality service. In doing so, hopefully our customers feel satisfied to continue on using our services.

During this time we have undertaken a huge amount of repairs and installations for all types of TV requirements on both domestic and commercial properties.

More than just TV maintenance

NorthWest Cherry Picker Hire covers a range of different sectors. Our vehicle is not only used for aerial and satellite maintenance or installations. It can be used to facilitate a numbers of other trades and engineers.

No middle man

We now have a designated representative who is assigned to manage all works involved with our company cherry picker. All enquiries, calls, scheduling is organised by our main operative. Our head operative is IPAF Certified and a qualified Gas Safe Engineer.

All operatives are IPAF certified

All our operatives who are qualified to use the vehicle have passed the IPAF training course, therefore are IPAF Certified and have passed the ECS Health and Safety course.

Rates

You can hire our 19m cherry-picker on an hourly, half day, daily and weekly basis. Offers are available for block booking. Our company rates card can be issued on request or enquiry. Weekend hire is subject to enquiries and the availability of operatives.

Why hire?

Our MEWP (Mobile Elevating Work Platform) hire service could be the perfect solution for most if not all of your high access needs. If you are planning ahead or currently in the process of undertaking work that requires high access, our service is an effective and safe way for you to do so. Using a high access vehicle will help to save you both time and money compared to other forms of access, such as scaffolding, towers, large ladders etc.

A safe, professional and reliable service

As NorthWest Aerials Ltd services have been over the last 25 years, you can expect a reliable and professional service when using our cherry picker services.

NorthWest Cherry Picker Hire will deliver and operate the platform to the point of your required location and our operator will be on hand to offer any assistance.

The International Powered Access Federation promotes the safe and effective use of powered access worldwide.

Our operatives will carry their IPAF/PAL cards with them at all times to provide you with the proof they are IPAF trained and certified.

We are fully insured to drive and operate the platform and we have a £5m public and products liability cover.

All relevant documentation will be available at your request and will be kept on the vehicle or on the operator if required.

Our engineers are fully equipped with all the required fall safety gear, which will include new harnesses and helmets etc.

NorthWest Aerials Ltd rates for hire of 19 metre high access vehicle
